

Rubber Ducky Game

3 Ways to Play!

#1.) Turn your Ducky Circles over face down. Flip two at a time. If your two Ducky Numbers match, keep the two Ducks. If they do not match, turn them back over. Use your memory & collect the most matches to win the game!

#2.) Follow the Rules of #1 Every time you do not make a match add your score of the two numbers together & keep a running tally. Once all of the matches are gone the game ends and the player with the **LOWEST** score wins.
(Can be played with Multiplication)

#3.) Follow the Rules of #1 Every time you make a match add your score of the two matching numbers together & keep a running tally. Once all of the matches are gone the game ends and the player with the **HIGHEST** score wins.
(Can be played with Multiplication)

Color & Cut out the Circles
